

# Kettler Tristan

## Kettler Tristan – The more demanding you are the better for us!

Sport, Fitness, health and optimism are all attributes of our leisure culture. Exacting requirements, quality consciousness and awareness of safety are high priorities. If the requirements are met, your customers will be willing to invest money. The Tristan manufactured by Kettler represents a class of its own for professional tanning.

### Key features:

- High power face tanner, adjustable in three phases (300, 400 and 500 Watt) depending on skin type.
- Adjustable air-cooling in the head area – optional at the foot end.
- Climatized bed surface and air-condition supported body cooling.
- Special tanners for shoulders via integrated reflector system.
- Central air extractor with or without recycling of warm air.
- Simple operating element with LED display (power settings, tanning time remaining, error signal) accessible in lying position.
- Wide opening angle for easy entry.
- Easy opening and closing of flooders through integrated spring system.
- Generous tanning compartment for more freedom of movement and perfect all round tanning.
- With optional hi-fi loudspeaker system.

### Service and Maintenance:

Time is money. For us, service and easy maintenance is top of the priority list.

- Simple filter mat replacement in flooder
- Folding surface panels for effective cleaning and lamp replacement.
- Folding flooder glass for easy cleaning and lamp replacement.
- Simple filter-mat replacement in bed – surface area.

**The technical perfection will convince you, the visual elegance will delight you.**
